

TUBERCULOSIS TEST.

TUBERCULOSIS TEST.

**DISEASED K. S. A. C. CATTLE
SLAUGHTERED YESTERDAY.**

DIAGNOSIS FULLY VERIFIED.

TUBERCULIN POINTED OUT THE DISEASE WITH CERTAINTY.

Seven More Animals to Be Slain To-day—Cattle of Four Breeds Infected—Veterinarians of Note Are Attending the Investigation.

Manhattan, Kas., Oct. 20.—(Special.) The public slaughter and post mortem examination of animals in the Kansas state agricultural college herd which had responded to the tuberculin test occurred this afternoon, conducted by Dr. Law, of Cornell university; Dr. F. A. Geddis, from the bureau of animal industry at Washington, and Professors Fisher and Cottrell, of the agricultural college. But eight of the fifteen animals responding to the test were

All the animals responded extremely well to the tuberculin test, and post mortem conditions were decidedly pronounced. The college herd has been twice tested, first in December and January of last year. Tuberculin, Koch's lymph, was applied by

The summary of existing conditions in the herd of fifty-nine animals is as follows: Fifteen infected, six unsound by failing to react for tuberculosis, and the

The oldest animal slaughtered this afternoon was past 10, the youngest some 3 years. Various stages were found existing, yet in all cases in strict accordance with the tubercular reaction. The majority of the carcasses contained

Angus of 8 years, the udder was found badly diseased. In another, tubercles the size of a goose egg were taken from the lungs.

ceased animals, the three responding to the test of last year having been disposed of at that time. The animals affected seem in perfect physical condition, and show no outward signs of disease. These are isolated, as nearly as conditions permit, from the sound animals.

what means shall be taken to prevent the spread of the disease from the infected quarters.

Visiting veterinarians expressed themselves as pleased with the manner of conducting the investigations and as strengthened in their faith in the tuberculin test.

deison, of Nebraska, and Dr. Peters, from the experiment station of the same state, and Dr. George C. Pritchard, of the state sanitary commission. Many stockmen and farmers of the surrounding country also were present.

His Note on the Bimetallism Proposals Exactly in Line With the Forecasts.

London, Oct. 20.—Lord Salisbury to-night sent to Ambassador Hay the reply of the British government to the proposals of the American Bimetallism.

matically worded note. His lordship says that the government of Great Britain is not able to re-open the India mints at present. He regrets the inability to accede to the proposals of the American commissioners, Great Britain having as great an interest as the United States and France in securing

In these circumstances, continues Lord Salisbury, the British government does not see the desirability of an international monetary conference, but will be pleased to consider any other practical suggestion from the United States.

which was under discussion at the meeting of the cabinet council last Saturday and which takes strong grounds against the re-opening of the India mints. Senator Wolcott is not in London this evening.

Ambassador Andrew White came from

Senator Wolcott. In the course of an interview with the correspondent of the Associated Press Mr. White said that Germany's action as to bimetallicism will depend upon England.

**Found Wandering About
in Chicago.**

Chicago, Oct. 20.—Annabel Farmer, who is said to be from Kansas City, is locked up at the Hyde Park police station, and will be held until the police learn more.

wandering in the vicinity of Washington park, and appeared to be demented and faint for want of food. At the police station, Miss Farmer said she had run away from home on account of a quarrel with her stepmother, and until recently has been stopping at the Young Women's

Miss Annabel Farmer was a student at Spaulding's Commercial college three years ago. She was entered on the books as from Erie, Kas., and so far as known has no relatives in the city. She has not been in the college since 1894. During 1885 and 1896 she was a stenographer in the office

Miss Farmer was about 21 years old, of medium height, with reddish hair and blue eyes. She was quite slender. She was a bright student and earned a good salary after leaving the business college.

Paris, June 10.—A dispatch received here from General Gallieni, the French commander-in-chief in Madagascar, announces that a strong band of Sakalava has attacked a French post which was recently established at a point on the Tsiribihina river, in Western Madagascar, killing many of the garrison, including three officers.
